Not a few who read what Mr. Robert Rowls, of Hollands, Va., has to say be low, will remember their own experience under like c:rcumstances: "Last winter I had la grippe which left me in a low state of health. I tried numerou remedies, none of which did me any good, until I was induced to try a bot tle of Chamberlain's Cough Remedy. The first bottle of it so far relieved me that I was enabled to attend to my work and the second bottle effected a Eure." For sale at 25 and 50 cents per bottle by Clark O. Proud.

For the Relief of the State Militia.

Be it enacted by the senate and house of representatives of the United States of America in congress assembled that the provisions of existing pension laws are hereby extended to the officers and privates, their widows, children, dependent mothers, and fathers of all militia raised in the several states during the years eighteen hundred and sixty-one to eighteen hundred and sixty-five who performed military service in the Federal Army during a period of ninety days or longer, and that a certificate of discharge from either state or United States authority shall be prima facie evidence

If this bill passes and becomes a law about 2000 valuant men will be benefited in the 4th congressional district. Many loyal men in Northwest Missouri volunteered in the first organizations that were formed, and who so manfully aided in preserving Missouri to the union. Many of them served from six months to a year and lawyers of a high grade. Altogether seeks to furnish remnueration to such veterans and those who did militia duty during the dark days of the rebellion. Missouri Iowa Line.

Proceedings in equity have been in stituted in the supreme court of the United States by Attorney General Walker of this state in the name of the State of Missouri, against the state of lows, to secure a decree of the court to relocate and re-establish the boundary lines between the county of Mercer in the state of Missouri, and the county of Decatur, in the state of Iowa. To the bill filed by Attorney General Walker, the attorney general of Iowa filed an an swer denying the facts stated in the bill.

After filing a stipulation as to the appointment of commissioners and a full statement of the facts by Attorney General Walker, the court took the matter as submitted, and a formal decree will doubtless be entered as soon as the matter is formally inquired into by the court. The attorney general of Missour recommended General James Harding recommended General James Harding of Jefferson City as the commissioner of Missouri, and the attorney general of Iowa suggested Peter A. Dey of Iowa City as the commissioner of that state. This matter, when finally determined by the supreme court, will settle many questions of conflicting jurisdiction, which have arisen during the last four or five years between citizens of Missouri and Iowa living along that portion of the line in dispute. Provision for this action was made by the last Missouri legislature.

up of very competen men. Justice Brewer, of the Supreme court, is a jurist of the highest type, and well versed in international. Hon. Andrew D. White, once president of Cornell university, and later Minister to Russia, is one of the most eminent scholars of this country Frederick R. Coudert is a lawyer of high ability, and was one of the American counsel for the Bering Sea commission. Richard D. Alvey is a judge, and has a high reputation in Maryland. Daniel G. Gilman, president of Johns Hopkins university, is a man well known in the world of letters, and an authority on in ternational law.

While it is true that these gentlemen are not as widely known by name to the masses of the American people as they would be were they in active politi cal life, it does not follow that their selection is not eminently judicious. Their duties require a high degree of intelligence, and the choice of scholars rather than mere politicians is wise. The commission will have to sift and weigh sysdence, which requires judicial and legal training; hence the selection the appointments command the respect and the endorsement of the American

THE Cubans may not be about to capture Havana, but the tenor of all the dispatches is that the Spanish forces are compelled to keep very close to their fortified towns. In fact, they are practically shut up in them, being able only to make occasional raids upon the in surgents. This condition of affairs goes to show that all of the dispatches from Havana proclaiming victories for the Spanish leaders had no foundation in fact. So far from crushing the rebellfact. So far from crushing the rebell-ion, it is very evident that the Spanish authorities are acting on the defensive.

It is true that he was one of the leaders in the organization of the Republican party in antebellum days, and one of the ablest and most courageous men of the north who braved the slave-power on the floor of the house of representatives even before the rumbling of advancing civil war was heard; but the John Serman of today is as vigorous and as powerful a champion of the credit and integrity of the government as he was when he incomparably administered the affairs of the national treasury twenty years ago. If there was ever any doubt of his ability to longer cope with the younger leaders of the Democratic party in the senate, it was clearly dissipated in his magnificent reply the other day to the glittering sophisms of Senator Hill, of New York. The Anti-Trust Laws. The house of representatives last

reek adopted a resolution calling upon Actorney General Harmon for informaion as to what steps had been taken to enforce the laws against trusts and combinations and what further legisla tion, if any, is needed in his opinion to protect the people against the same. A prompt response to this request is to be expected, for so far as the public i aware the attorney general has taken to steps whatever to enforce the antitrust laws, if indeed he has given them the least attention. His predecessor in the office of head of the Department of Justice, who took the first opportunity to discredit the act passed in 1890, did institue proceedings against one trust under that act and being defeated in the courts went no further, although in he meantime there was incorporated in the new tariff law an anti trust provison which was supposed to represent what the Department of Justice at the time thought to be necessary to protect the people against trusts and combina-tions. Attorney General Harmon has, so far as known, entirely ignored this law. The present administration came into power pledged to use all its authority to suppress trusts, which Mr. Cleve-land strongly denounced in his in-augural address. The pledge has has not been kept. An explanation from Mr. Harmon will be read with very general interest.

The Judiciary Counsel. The annual conference of the judge

f Missouri was held in Kansas City of Missouri was held in Kansas City Friday last. Among those present and participating was Judge Anthony of this circuit. The principal part of the session was devoted to discussing suggestions by the judges regarding omissions, incongruities and uncertainties in the statutes requiring to be remedied. Judge Barclay suggested that every judge who had in wind any defect in the statutes which needed remedying should not his ideas in writing and send should put his ideas in writing and send them to him, and he would have them printed and circulated among the judiciary before the next annual conence, at which steps would be taken to bring the attention of the legislature to needed reforms in the proper way.

This suggestion was put in the form of a motion and prevailed. We hope some member of this association will be able to patch up the present botch of the revenue law that says that property shall be assessed at its true value, but is never heeded only in one class of tax payers, while the other class is assessed at only about one fifth of their worth-A's note is assessed at 100 cents on the dollar while B is assessed at one fifth his value. Major Bittinger, editor of the St. Joseph Herald, in an interview with a Jefferson City Courser reporter expressed himself thusly: "For attorney general, Senator John Kennish has practically no opposition." We do hope the major's diognosis is correct, and that Mr. Kentish may receive the nomination unanimously, and that a strong delegation from this district may be sent for this purpose. In speaking of the capital removal, he said: "The capital will never be removed. The capital will never be removed. The people do not want it taken away from here, and if it comes to a vote I think it will turn out so. I can't understand the object of moving a capital simply for the sake of getting the same kind of buildings we have here. What is \$150,000 spent on a building for a capitol? It is not commensurate with the grand state of Missouri. If we want a Capitol, we want a \$3,000,000 building. When the state is out of debt we can easily build guch, and build it right here. This is the prettiest spot in the state. Take that big hill across the branch and lay it out in terraces; run a cable line around it from the depot, and it would be a perfect Capitol site for a fine building. Then build a stone viaduct for your little "Goose Creek" clear through the city. Jefferson City has displayed remarkabele progress in the past and I look for big improvement in the future."
